

20. The ester ethyl ethanoate is produced by the following reaction.

Which of the following mixtures would produce 0.8 moles of ester if the yield was 80%?

	moles of CH_3COOH	moles of $\text{C}_2\text{H}_5\text{OH}$
A	0.4	0.4
B	0.5	0.5
C	0.8	0.8
D	1.0	1.0
