

2017-Ph-H1-Q17

Section: Particles and Waves

Topic: Radiation

Which row shows the charge and mass of **alpha, beta, and gamma** radiation?

Summary:

- Alpha: charge +2, mass 4
- Beta: charge -1 , mass ≈ 0
- Gamma: charge 0, mass 0

So correct row is:

 **Final Answer: C — (+2, -1 , 0), (4, very small, 0)**

Revision Tips:

- Alpha = He nucleus: $2p + 2n$
- Beta = electron or positron
- Gamma = electromagnetic wave
