

2017-Ph-H1-Q9

Section: Our Dynamic Universe

Topic: Relativity

| Which statement is one of Einstein's postulates of special relativity?

Key Concept:

Einstein's two postulates are:

1. **Laws of physics are the same** in all inertial frames
2. **Speed of light is constant** in all inertial frames

So the correct answer is:

 **Final Answer: D — The speed of light is constant for all observers**

Revision Tips:

- Relativity deals with **time dilation** and **length contraction**
 - Light doesn't change speed depending on the observer
-
