

2021-Ph-H1-Q14

Section: Particles and Waves

Topic: Nuclear Reactions

What is conserved in nuclear reactions?

Solution:

- Mass-energy
- Charge
- Momentum
- Nucleon number

All must be conserved.

Answer: E

Guidance for Students:

Always apply conservation laws in particle or nuclear reactions. It helps check equations for correctness.

Revision Tip:

In **every** nuclear reaction:

- ✓ Charge
- ✓ Nucleon number
- ✓ Momentum
- ✓ Energy (mass-energy)
